UTILISATION

Supplement to forage for horses

Vita Fiber is used as a supplement to forage.
We advise to feed at least 1.2 kg hay per 100 kg of the horse's body weight. For a 500 kg horse, this means a daily distribution of 6 kg of hay.

Quantities should be adjusted taking into account the weight, body condition, age, activity level and breed of the horse, in addition to the type, quantity and quality of forage given.
